Re: Grant Agreement DTPH56-09-G-PHPT13  
Final Report

Dear Ms. Munoz and Mr. Hall:

The City of Hamilton, Ohio (City) received a \$50,000 Technical Assistance Grant for the High Pressure Gas Distribution Main Engineering and Integrity Study. The purpose of the grant was to fund an engineering study and development of construction plans to modify the City's high pressure gas distribution main to make it capable of accepting an in-line inspection (ILI) tool. This main was installed in late 1960's and is approximately 7.6 miles in length.

The completed engineering plans and bill of materials are attached to illustrate the work that was completed as part of this grant agreement. If you have any questions or need additional information please do not hesitate to contact me at (513) 785-7285.

Sincerely,

James Collins  
Director of Gas & Water
